EFX® 535

Experience™ Series

ELLIPTICAL FITNESS CROSSTRAINER®

Product Highlights

The EFX 535 combines Precor's industry-leading elliptical motion with a space-saving design, now 4 inches shorter than other EFX models to maximize performance in smaller spaces. Perfect for lighter-use facilities like multi-family housing, corporate wellness centers, and hotels, it delivers smooth natural movements without compromising quality. With its thoughtful design, accessible features, and proven durability, the EFX 535 provides an exceptional workout for exercisers of all abilities while meeting the operational needs of facility owners.

Black Pearl

Product Features

P31 Console

A LED console that works harder for you, your exercisers, and your servicers. Exercisers will enjoy the well-placed resistance and incline controls, as well as accessible workout options. Get integrated asset management to supercharge your service techs with extra information, right at their fingertips.

Adjustable CrossRamp®

Our compact CrossRamp® technology allows exercisers to isolate lower-body muscle groups with adjustable incline angles ranging from 10 to 35 degrees. Exercisers can easily target glutes, quadriceps, and calves to create a well-rounded workout tailored to their fitness goals. Large open pedals, a low step-over height, and an accessible 10-degree starting angle make it simple for beginners to get started, while higher inclines and resistance challenge advanced exercisers.

Handlebars

The moving handlebars deliver a full-body workout with every session. Fixed grips provide stability and confidence for exercisers focused on lower-body training, making the EFX adaptable for all fitness levels.

Specifications
